Discussion on street paving. Wargo informed council that he had spoken with PennDOT and paving would have to be advertised and bid out if the borough uses liquid fuels funds. That includes the proposed joint project with the water authority. The street supervisor, Jason Gabor, prepared a list of streets and their priority for paving. It was recommended that the borough hold off on paving the roads where the water authority project had been done until next year to make sure the trenches didn't settle and sink. Wargo will contact the engineer. Dunchuck suggested the cost of a paving project be half from the ARP funds and the other half paid from liquid fuels. Wargo will contact Mike Bowser from PennDOT to go over the road with the street crew.

MOTION: Dunchuck, 2nd Holby to adjourn. All ayes motion carried
